I agree, if we provide incentive to stores, say \$25 for first bottle, that's \$12,500, and additional \$10 to McKesson for the 1st bottle order which is \$5000. This way we can put product at 500 stores.

Think we are on the same page... like the limited focus of calls to only those stores that have purchased brand in the past 9 months (or do we refine to 6 months)... Lets ratched it down with what we pay them to make the calls and potentially give them an opportunity to earn 5X or 6X the number (25K-30K) based on providing proof of store stocking in a period of 30 days... With the 25K-30K we should get some to the retailer to incentivize them to order and fast...

Hi Ara,

Attached is a slightly modified proposal for our promotional opportunities. In light of the fact that we are targeting only 500 pharmacies with significant brand sales, I've lowered the prices for the GenericsConnect phone campaign and the fax blast, in addition to reducing the store count for the mailer.

I am available Monday, August 22 between 2:00 - 3:00pm Eastern. I'm also free on Tuesday, August 23 from 1:00 - 2:00pm Eastern. Let me know if either of those times work for a call.

John,

Thank you for putting the proposal together.

I'd like to schedule a call with you sometime today or early next week to review the proposal with our Director of Marketing (copied).

Please let me know your availability.

Thanks,

Ara Aprahamian RPh

Hi Ara,

I'm the Marketing Director for the McKesson OneStop Generics program. In collaboration with Amber Kehoe's Product Management team, I've put together a marketing plan to promote awareness of your recently launched oxymorphone ER tablets.

I understand that you are looking to target this to the approximately 500 accounts with significant brand purchase history, and have accounted for that in the proposal. Please note, however, that many of our communications vehicles can reach a larger population at no additional charge.

Please let me know your thoughts on our recommendations. Thank you.

Ara we can probably target the 500 accounts noted as part of the sales pull figures through CY 2010. I will pull in our marketing team to work through a campaign set up and get back to you accordingly with our recommendations

Thanks

Amber

Amber:

Good afternoon,

As you know, we have recently launched Oxymorphone ER 7.5mg and 15mg (attached launch notice) and need your assistance with the following:

- 1) Run a query of brand (Opana® ER 7.5mg and 15mg) sales within McKesson for the past 9 months to identify high purchasing pharmacies.
- 2) Coordinate a stocking promotion/offer to those target stores

3) Ship product to those target stores (based on receiving pharmacy order in house)

We are promoting awareness direct to physicians on the availability of Actavis generic Oxymorphone ER 7.5mg and 15mg but facing some stocking challenges in the pharmacy and would like to partner with you on this.

Please let me know your thoughts on the above and what it will take to get it done. Actavis is open to the actual structure of the program and compensation to make this happen but timing is getting to be the issue with physicians writing the script and pharmacies not having product on hand.

Thanks in advance for your time and consideration and please do let me know.
